The world is full of foreign lands to discover, treasures to tick off and things to do (and eat). But the bucket list is where true, once-in-a-lifetime holidays belong – the kind that take your breath away and make your skin tingle, that take you to the farthest, most remote reaches of the Earth and make you feel alive. Exploring Milford Sound, seeing the most Southern Lights of NZ on Stewart Island or heading to the comparative remote Catlins... this is bucket list material. So is sleeping in a real life castle, chartering a private yacht around the Abel Tasman . Your journey starts here Start ticking off your bucket list

Flying Fox Heli Hike

The fly-in, fly-out heli hike combines the excitement of walking on the Fox Glacier with the thrill of helicopter flights. By flying in you are able to access and explore a part of the glacier where its forces work hardest and often create spectacular ice caves and arches. Your landing site on the ice is a remote and exceptionally beautiful part of the glacier at approximately 800 metres above sea level . Each departure is a true voyage of exploration - there are so many changing features that the guide always finds something new.
